2 Trainer Biography

Kristina Kareh
Senior Editor, *Nature Communications*

- PhD from Imperial College London, UK
- Research focused on semi-solid steel imaging and solid oxide fuel cells

Kristina joined *Nature Communications* in March 2017. She completed her PhD at Imperial College London, where she investigated the microstructure of semi-solid aluminium-copper alloys using synchrotron X-ray tomography. She continued on at Imperial as a postdoctoral scientist, imaging semi-solid steels before extending her work to solid oxide fuel cells. Kristina handles manuscripts spanning all areas of metallurgy and materials under pressure. Kristina is based in the Springer Nature London office.
